fortresscraft evolved adventure pack

Looks like I get the first review here. This has been a very-much anticipated update to what is probably one of best (at least content-wise) games ever made. It includes several nice features along with "mutators" that seem to offer different game modes and scenarios. I'll admit to being a little light on them as of yet. As a side note, this release includes a lot of features reviewers of the original game claimed were "behind a patreon paywall". The dev allows patreons to playtest content - it was never going to be exclusive to paterons. Try the base game out - then grab the dlc. Its worth far more than the price.. It is a great Game. I love this Game.. Finally I been waiting for this thanks so Much Mr.. Tried a new world with Lucrative Mobs. 20 minutes in and a slime drops a jetpack. 10/10 would recomend.
