Horrible documentation. No controls, no tutorial. I had to google for a walkthrough to even figure out how to open the inventory bar. Not Frogwares best work, but at this point into the game, I am enjoying it.. This is a new version of the game and it's actually worse than the one I used to play as a child. Puzzles have been removed, pathfinding is buggier than I remember it to be and you can't acquire a specific item at the beginning of the game. It's definitely not worth buying, even for nostalgia's sake.. It's outdated and bugged.. This game promised to be good, but did not follow through and therefore couldn't progress, things had been altered and left out. Like no puzzle to open cave door and no reference to Pills and the Horn so it wouldn't go any further.. un joc bun ,pe care l-am jucat cu multi ani in urma,si il rejoc cu placere .recomand iubitorilor point-click.
